Why Execution Matters

EXPAND ALL

Why does FXCM offer dealing desk execution?

How do I know if my current broker is a dealing desk broker?

won't trade against me?

What will FXCM's dealing desk do if I use a trading strategy that they don't like?

If you can see my waiting orders (entry, stop, and limit) with dealing desk execution, why can't you see them with No Dealing Desk execution?

FXCM can see your waiting orders when you trade with No Dealing Desk execution. But this does not create a conflict of interest between you and FXCM because we aren't taking a market position. When you place an order with FXCM, we place an identical order to yours with our liquidity providers.

Our liquidity providers only see market orders coming from FXCM. They do not see orders coming from you, and they cannot see your waiting orders (stops, limits, entry orders). So your trading is anonymous with our liquidity providers under the No Dealing Desk model.

How can I switch between execution types?

Is dealing desk execution available to the MetaTrader 4 platform?

Can FXCM switch my execution type without my consent?

¹ FXCM maintains a no re-quote policy. Circumstances exist based on order size, trading pattern, and market conditions where individuals may not receive execution at the requested rate. Orders are executed at the next available rate within the trader's parameters, subject to market conditions. The difference between the requested rate and final execution price may be more or less advantageous based on the market activity and available liquidity.

High Risk Investment Warning: Trading foreign exchange on margin carries a high level of risk, and may not be suitable for all investors. The high degree of leverage can work against you as well as for you. Before deciding to trade foreign exchange you should carefully consider your investment objectives, level of experience, and risk appetite. The possibility exists that you could sustain a loss of some or all of your initial investment and therefore you should not invest money that you cannot afford to lose. You should be aware of all the risks associated with foreign exchange trading, and seek advice from an independent financial advisor if you have any doubts. **Please read FXCM's full risk warning** (/web/20130205185432/http://www.fxcm.com/legal/trading-execution-risks/).
